Board Member

**Christine Pirillo**

Deputy Director – Professional Development

I am a wife, mom, student and professional who enjoys recreational outdoor activities with my active family. My career journey began in Laboratory Medicine and has expanded into various disciplines in healthcare.

I have held roles in operations, project and program management. I am currently in pursuit of a Doctorate in Health Care Administration and hope to be an advocate for strong project management principles within Value Based Health Care Models.

### Why did you join the PMI® Keystone Chapter?

I joined the Chapter to advocate for a strong PMI® presence in the Clinical Enterprise of Healthcare Delivery Systems.

### Why did you apply to volunteer on the Board?

As someone who consciously exercises a growth mindset, I wanted to find a platform where I could learn from other PM Professionals in other industries. Our Board is very diverse, and that in itself is a gold mine for idea sharing and networking!

### What benefits have you received from your involvement with the PMI® Keystone Chapter?

Since joining PMI® and then the Keystone Chapter Board of Directors, I have sharpened leadership skills and strengthened business acumen by taking advantage of the various webinars offered.

### What is one nugget of advice you have for our PMI® Keystone Chapter community?

**LET INTEGRITY BE YOUR LEGACY!**
